**ECC Statement**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device complies with FCC Part 15.247. The device may not cause harmful interference, and the device must accept any interference that may be received, including interference that may originate from wireless devices.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy, and if not properly installed and used, it may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If you experience interference, you may wish to take the following measures, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- Use shielded cables.

The equipment complies with FCC radiation emission limits set forth for unlicensed intentional radiators. The equipment is tested and approved with maximum duty cycle between the on and off time.

**WEEE Information**

WEEE (Waste Electrical and Electronic Equipment) Directive 2002/96/EC requires that the user should not be allowed to dispose of this equipment in the general waste stream. This equipment should be recycled in accordance with the applicable local, state, and federal laws and regulations.

WEEE (Waste Electrical and Electronic Equipment) Directive 2002/96/EC requires that the user should not be allowed to dispose of this equipment in the general waste stream. This equipment should be recycled in accordance with the applicable local, state, and federal laws and regulations.

**EU Declaration of Conformity**

Shenzhen iMILAB Technology Co., Ltd. declares that the radio equipment type iMILAB C20 is in compliance with Directive 2014/53/EU.

**Specifications**

Model	iMILAB C20	Removable Memory	iMILAB C20 (up to 256GB)
Resolution	1080P	Dimensions	80 (mm) x 70 (mm) x 70 (mm)
View Angle	110°	Operating Temperature	-10°C to 40°C
Resolution	1920 x 1080	Compatible With	Android 4.4 or iOS 9.0 or above
Power Input	5V / 1A	Warranty	One Year
